

## Why should I take an ROP class?

Experience is the best teacher.

ROP can help you get the experience needed to obtain your first job, update your existing skills and prepare you to qualify for a better job. Many classes include “hands-on” internships in business and industry. ROP can also be very helpful in the exploration of your college major. People who complete ROP classes obtain skills and experience demanded by employers, and those who are university/college bound are able to examine areas of interest before making long term commitments. University/college applicants may receive priority consideration when transcripts show evidence of involvement in a related career program, such as ROP, especially in many popular or highly impacted fields of study. Students are also prepared to seek advanced training and realize the value of continuing education.

Articulation with Butte and Yuba Colleges offers advanced placement and/or credit for the completion of some ROP classes.

## Multi-Media Production & Design

# Multi-Media Production & Design

## Class Description

This class gives students the opportunity to acquire the technical knowledge and skills needed for successful entry-level employment in media related occupations and/or advanced post secondary studies. It provides training in still and motion picture acquisition, linear and non-linear editing, presentation graphics and systems (electronic & print), video conferencing, web page design and integration, digital animation, special effects and titling, multimedia work flows, as well as studio based and field (location) video production. One of the main focuses of the class is to direct and produce the KGHS TV station.

**The ROP mission** is to provide high quality job training, career counseling and guidance which will provide adults and high school students in Butte County with job skills, knowledge and attitudes leading to success in their employment experiences.

## What is special about ROP classes?

ROP classes are taught by credentialed instructors who have trained and worked in the industry they are teaching. In addition, most ROP classes provide real-world experiences by placing students in internships.

## Who can enroll?

You need to be at least a high school sophomore (juniors and seniors have priority) and see your high school counselor or call ROP at 879-7457.

## Is there high school credit?

Yes, high school students earn credit toward graduation upon successful completion of this ROP class.

## What is the cost?

There is no cost for high school students.

## How long are classes and when do they start?

This class meets at Gridley High School one hour daily for two semesters and begins in the fall.
