### Super Science Lab

**June 8th-12th** Science goes exploring!

All the investigative fun without the mess at home. A week of curiosity and amazement. Have fun while learning something new.

### VEX Robotics

**June 15th-19th** Build, program, and play!

Engaging hands-on experience. Code a real robot. Learn technical skills, critical thinking, problem-solving, creativity, communication and collaboration. Ends with a mini competition.

### Creativity starts Here

**June 15th-19th** Everyone has fun being creative!

Play with different art mediums and hands-on projects. Discover art's great masterpieces. Improv games and drama activities.

### Coding Magic

**June 22nd-26th** It's more than learning to code!

Make ordinary objects come to life. This ultimate STEM adventure has robots, circuits, coding, designing, and games. Build a real computer.

### Art Around the World

**June 22nd-26th** Fill up your artistic passport!

Experience art like never before. Travel to new countries every day recreating cultural art projects. Improv games and drama activities.

### Fuel & Fitness

**July 6th-10th** Fantastic way to stay active!

Explore various fitness sports and activities. Learn to prepare energy-boosting snacks in our traveling kitchen. Dress comfortably.

### Multimedia Madness

**July 13th-17th** Do you want to escape reality?

Combine creative ideas with professional technology. Go on an adventure anywhere in the world with our virtual reality field trips.

### Fear factor

**July 20th-24th** Do you have what it takes?

Face your fears and out-pace the competition. Creepy crawlies and fun challenges will push the limits and test your determination.
